

July 24, 2012

At our last condominium association meeting the Board of Directors voted to seek the counsel of our insurance agent as to whether we may provide non-commercial exercise equipment in our Fitness Center. Per our agent's instruction, we have removed the weight bench and all free weights from our Fitness Center. We will continue to provide commercial equipment for your use which will be maintained under a service contract.

Be advised that if you choose to use the Fitness Center, you do so at your own risk!

If you use your own exercise equipment in the Fitness Center, please take it with you when you leave. Any personal equipment left in the Fitness Center will be removed.

Thank you.
